## COMPANY HISTORY

John Nitschke Drilling Pty. Ltd. (JND) is an Australian owned and operated company. JND has been providing the Mining, Exploration and Water Well Industries with a professional and comprehensive drilling service since 1962. Since then the company has undergone planned and steady growth, and currently operates one of the most modern and technically advanced fleet of drilling rigs with in Australia. The company is based at Hahndorf in the Adelaide Hills SA with operational branches in QLD and WA.

JND have the capacity and expertise to drill 6 to 12 ¾ inch diameter rotary to depths of 1500 metres and HQ core to over 1600 meters. All terrain all wheel drive vehicles can get our equipment to the most difficult and remote sites.

JND has led the way in the development of innovative drilling equipment with advanced safety features. The company operates a large engineering workshop, which enables research and development to be carried out on an ongoing basis. All rigs are built to meet and exceed the safety requirements of our major clients which include BHPB and Rio Tinto.

### SPECIALIST DRILLING METHODS:

- Rotary Mud & Air
- Directional Drilling
- Down Hole Hammer
- Diamond Coring

### SPECIALIST DRILLING TECHNIQUES:

- Coal Seam Methane
- Coal Mine Methane
- Surface to In Seam
- BOP Well Control

## SERVICE DELIVERY

JND has achieved strong recognition for being able to achieve client expectations with service delivery. This has been achieved through careful planning and realistic timelines being established when outlining its capabilities with our contract partners. As a part of this plan JND is committed to the establishment of supply chains and a Maintenance program to ensure safety and productivity are not compromised.

## PERFORMANCE

JND carry out some of the most technically difficult drilling projects in the industry today. We are committed to continuous improvement and industry best practice. Our prime objective is to provide a high quality, diverse, innovative and reliable contract drilling service to all sectors of industry.

The Board and myself have a vision and view that we will strive to be the best at what we do. This is achieved by having the right people, the right equipment, the right processes and procedures and the right jobs.
